

How to Set Your Screen to Lock in Vista

1. **Right click** anywhere on your desktop then select **Personalize** from the drop down menu
2. Select **Screen Saver**
3. Make sure you have a screen saver selected – it does not matter which one
4. Check the box that says **On resume, display logon screen**
5. Enter the number of minutes you want to wait until the screen saver activates
6. Click **OK**
